Total power (kW)	13,9
Supply (N)	400V 3N 50/60Hz
Weight (kg)	99
Volume (m3)	0,8

The sealed 6mm ceramic top offers high cleaning comfort thanks to the flat surface and cleanable glass ceramic. It is watertight fixed to the AISI 304 stainless steel pressed worktop, thickness 1,5 mm. In the infrared heating plates models, the heat is produced by means of electric elements underneath and transmitted by diffusion. Independent temperature regulation for each cooking area. Indicator lights show when each hotplate is in operation.
